

What is Cystic Fibrosis:

Cystic Fibrosis (CF) is a genetic disease that causes thick, sticky mucus to build up in the lungs, digestive tract and other organs. CF requires a lifetime of daily treatments and vigilance. Frequent inpatient hospitalizations are often a regular part of life for those living with CF.

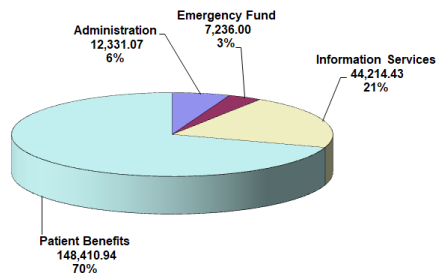

What is CFFC:

The Cystic Fibrosis Family Connection (CFFC) is a not-for-profit corporation established in 1993 to assist patients and their families in coping with the challenges of cystic fibrosis.

CFFC is an all volunteer organization managed by a Board of Directors drawn from the local CF community (patients, parents and caregivers).

Since its inception, CFFC has committed over 90% of its expenditures for services to the CF community. As a 501(c)(3) organization, donations to CFFC are tax deductible.

CFFC Expenditures through 6/30/2022

CFFC Mission Statement:

CFFC is dedicated to supporting CF patients and families in their daily struggle with cystic fibrosis.

CFFC Goals:

- Provide financial assistance to reduce the burden of hospitalizations and emergency situations
- Serve as advocates in navigating care systems
- Facilitate the exchange of information within the cystic fibrosis community
- Raise public awareness of the challenges in, and hope for, living with cystic fibrosis
